

# **POST HARVEST** **- MAINTENANCE PRODUCTS -**

## **TRUCK RESTORE**

HF-BASED CLEANER FOR REMOVAL OF BUILDUP OF HARD WATER, SCALE, DIRT AND ROAD FILM. RESTORES ALUMINUM SURFACES TO "LIKE NEW" CONDITIONS.

## **DYNAMITE**

"MIRACLE" WAX AND PAINT RESTORATION PRODUCT. CARNUBA BASED FOR LONG LASTING PROTECTION FROM THE SUN, WEATHER AND OTHER HARSH ELEMENTS.

## **PREEN**

THE QUALITY AND STRENGTH OF SUNRISE'S ARMOURGUARD SURFACE PROTECTANT IN THE CONVENIENCE OF A PRETREATED DISPOSABLE TOWEL.

## **KRYSTAL ICE**

ADVANCED CLEANING TECHNOLOGY FOR USE ON GLASS, CHROME AND OTHER HARD SURFACES. USER FRIENDLY, STREAK FREE AND FAST DRYING.

## **ARMOURGUARD**

RUBBER, VINYL AND PLASTIC PROTECTION FOR ALL TYPES OF EQUIPMENT. CONDITIONS AND PROTECTS AGAINST HARMFUL EFFECTS OF AGE AND WEATHER.

## **ENHANCE**

EFFECTIVE REJUVENATION OF RUBBER, VINYL AND PLASTIC. "ONE-STEP" AEROSOL APPLICATION FOR QUICK AND EASY CONDITIONING OF ALL YOUR EQUIPMENT.

# SHAKER PAD LUBRICANTS

For over 40 years, Sunrise has been providing premium quality products to the agricultural industry. Our trademark combination of safe, cutting-edge ingredients

## SLING GLIDE II

Premium Water Soluble Shaker Lubricant

The forefront of lubrication technology in the agricultural industry. This compound is designed to lubricate and protect rubber tree shaker slings, while at the same time preventing bark damage to the tree. Dilutions rates up to 100:1.

- The market's premier water soluble shaker lube
- Use in automatic or manual applications
- Contains fungicide to help prevent mold in tanks
- Non-Toxic/Biodegradable
- Mixes easily with water

Packaging: 5 Gallon case (2.5g x 2, 210 gallons per pallet)  
55 Gallon Drum  
275 Gallon Tote

## RELEASE 222

Silicone Shaker Lubricant for Manual Application

Clear silicone lubricant designed to lubricate and protect rubber tree shaker slings. This compound deeply penetrates into rubber and provides a slippery surface for reduced friction and heat build-up, while at the same time preventing bark damage to the tree.

- Designed for use in manual applications
- High Silicone content for long lasting results
- "Non-Gumming" formulation
- Penetrates deep into rubber

Packaging: 1 Gallon (3 gallons per case)  
5 Gallon Jug with Spigot  
55 Gallon Drum  
275 Gallon Tote

## PAD & SHAKER PRETREAT

Gelled Pretreatment for Rubber Slings

Designed to extend the life of rubber shaker slings. Applying this synthetic formulation prior to, and during, shaking will greatly reduce friction and heat during harvest. Developed to be used with Sling Glide II and Release 222.

- Gelled formulation for use on vertical surfaces
- Available in aerosol or bulk packaging
- Extends the life of rubber
- Clear and Clean Formula

Packaging: 12 cans per case (16 oz fill/can)  
32 ounce Squeeze Bottle

## RELEASE 250

Synthetic Shaker Lubricant for Manual Application

**RELEASE 250** is a clear, non-toxic synthetic spray lubricant designed to lubricate and protect rubber tree-shaker slings. This compound deeply penetrates into rubber and leaves a stable broadcast of synthetic lubricant to provide a slippery barrier for reduced friction on the rubber to rubber surface. It prevents heat build-up during the tree shaking operation and prevents bark damage to the tree.

- Protects against wear and tear
- Clear
- Non-Toxic
- Rust Preventative
- Helps Prevent Barking
- Synthetic Formulation allows for longer life

Packaging: 12 cans per case (16 oz fill/can)

# ADDITIONAL ITEMS

## CHAIN & CABLE LUBE

Silicone Shaker Lubricant for Manual Application

Clear silicone lubricant designed to lubricate and protect rubber tree shaker slings. This compound deeply penetrates into rubber and provides a slippery surface for reduced friction and heat build-up, while at the same time preventing bark damage to the tree.

- Designed for use in manual applications
- High Silicone content for long lasting results
- "Non-Gumming" formulation
- Penetrates deep into rubber

Packaging: 12 cans per case (16 oz fill/can)

## 911 PRUNING SEAL

Advanced Technology Pruning and Grafting Sealer

Proper sealing of a pruned or grafted tree is vital to its longevity. Failure to achieve a complete and proper seal greatly increases the likelihood of infection from insects. In addition environmental factors such as weather and pollution rapidly accelerate decay. All of these factors can lead to premature death. Sunrise's 911 Pruning Seal was designed specifically to eliminate the problems associated with tree wounds, while at the same time preventing bark damage to the tree.

- Smoother spray for easy coating of tree wounds
- Bigger can for more value and less waste
- Better Coverage for quicker and more efficient application

Packaging: 12 cans per case (18 oz fill/can)
