QR CODE:

RENEWZ has been designed to put the black shine back in your vehicles faded and oxidized plastic and rubber. RENEWZ is ideal for use on plastic bumpers, side rails on pick ups, plastic door handles, plastic between car hood and windshield or anywhere you notice your plastic becoming oxidized and faded. RENEWZ will dry in minutes and leave a brilliant black to all your vehicles plastic rubber. Depending on conditions RENEWZ will leave your car shining for weeks after applied.

FEATURES & BENEFITS:

BRING THE BLACK BACK! - Instantly renews plastic and rubber.

LONG LASTING - A single application can leave treated surfaces looking new for up to 6 weeks.

EASY APPLICATION - Aerosol packaging allows for quick and easy application. Overspray easily wipes off of windows and other surfaces.

APPLICATIONS:

All areas where weathering dries-out or fades plastic and rubber. This product treats and restores plastic and rubber surfaces of; cars, trucks, motorcycles, side by sides and all other similar vehicles.
