- SKIN AND EYE IRRITANT
- RESPIRATORY TRACT IRRITANT
- SWALLOWING WILL CAUSE GASTROINTESTINAL IRRITATION

CLEANER CLASS 55

PROUDLY MADE
IN THE USA

PO Box 10207 ~ Reno, Nevada ~ 89510

ELIMINATE

SUNRISE'S ELIMINATE is a tremendous odor inhibitor. It has been formulated for use in garbage cans, trucks, dumps, leach fields, drain beds, sludge drying beds, seafood waste dumps, cigarette urns, kennels, locker rooms, incinerators, sewer manholes, trash cans, barns, or wherever odors are a problem. A light sprinkling of **ELIMINATE** will handle most odor problems.

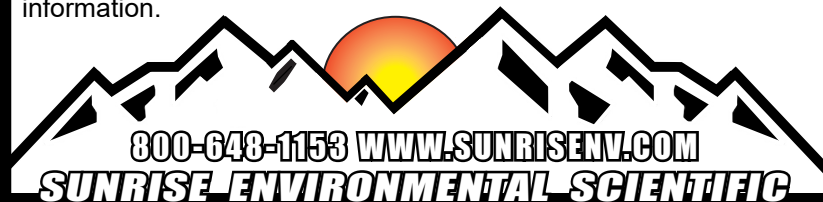

DIRECTIONS:

For general use, sprinkle **ELIMINATE** on or near problem area. Repeat periodically to keep area fresh.

For cigarette urns, use full strength or mix with sand. **ELIMINATE** will keep the urn smelling clean as well as act as a room deodorant.

For trash cans, simply sprinkle into a can periodically to keep rooms fresh.

CAUTION: Excessive dust inhalation may irritate mucous membranes of nose and throat, causing hoarseness or coughing. Wear an approved dust mask or respirator. Avoid prolonged contact with skin. Avoid contact with eyes. See Safety Data Sheet for additional information.
