

# ROLLER AND TIRE RELEASE

## HIGH CONCENTRATE RELEASE AGENT FOR THE ASPHALT INDUSTRY

OUTDOOR  
& INDUSTRIAL  
MAINTENANCE

**ROLLER AND TIRE RELEASE** has a unique formulation which is; pH neutral, odorless, and completely safe for all applications. Apply to prevent potential problem areas from; tar, asphalt, and slurry. **ROLLER AND TIRE RELEASE** can be applied to; tools, equipment, pavers, rollers, and any other potential problem areas. The high concentrations of active ingredients allow for maximum dilution ratios which create cost savings.

### FEATURES & BENEFITS:

**VERSATILE**- May be used for all parts of paving equipment.  
**ECO-FRIENDLY** - Non Toxic, Neutural PH formulation  
**COST EFFECTIVE** - Water-based formulation allows for high dilution rates

### APPLICATIONS:

Simple to use release agent for prevention of build-up rollers, tires and other asphalt/paving related equipment.

### DIRECTIONS:

**SUNRISE ROLLER AND TIRE RELEASE** should be diluted at the rate of 1 part product to 90 parts water. Always make sure and add the product to the water to prevent too much foam. Liberally apply to; rollers, tires, and anywhere else potential build-up is problematic.
