

# LUBRON

## Grease Gun In-A-Can

LUBRICANT  
PRODUCTS

**LUBRON.** This unique product sprays on and into hard-to-reach places. **LUBRON** changes from a penetrating fluid to become a tough, protective grease. This cured film is impervious to moisture and is stable at temperatures above 400°F. **LUBRON** will lubricate and prevent rust on any metallic surface.

### FEATURES & BENEFITS:

**High temperature-** greater drop point range.

**Liquid to grease-** Penetrates difficult areas.

**High adhesion-** Stays put.

### APPLICATIONS:

Full grease lubrication with the ease of aerosol application. All moving equipment.

### DIRECTIONS:

Spray a thin film on the surface to be lubricated or protected. To treat hard to reach area, insert extension tube in spray tip. Material will start forming into grease in minutes. Allow 15 to 20 minutes for product to fully cure.

### CUSTOMERS WHO USED THIS PRODUCT ALSO USED:

### FORMULATION:

High quality Petroleum oil and special synthetic polymers.

### TARGET ACCOUNTS:

Food packaging and processing plants, equipment, farm equipment, industrial machinery.

### SPECIAL CAUTIONS:

None.
