

MD-77

HEAVY-DUTY TRUCK WASHING COMPOUND

**AUTO & FLEET
MAINTENANCE**

MD 77 has been formulated for heavy duty cleaning of trucks, buses, heavy equipment and all stubborn cleaning applications. SUNRISE' amazing blend of cleaning compounds is safe to use on acrylic, lacquer, metallic painted surfaces, as well as chrome, aluminum and stainless steel, when used as directed. This product is outstanding for use on restaurant and bar chairs, automobile interiors, vinyl tops, tires and any other surface that lacks that original "new look".

FEATURES & BENEFITS:

High detergent load- Stronger penetration of grease and soils.

Granular form- Economy of application.

High sheeting- Reduced film forming quality.

APPLICATIONS:

This product is design for heavy duty cleaning of trucks, buses, and heavy equipment when the use of a dry cleaning substance is preferred.

DIRECTIONS:

For best results water temperature should be at least 135°F. Lower temperatures may require a stronger solution to produce desired results. For general cleaning, use 2 pounds of **MD 77** for each 55 gallons of water. Various conditions may require altering the dilution to attain desired results. After washing is completed, rinse surface thoroughly with clean water.
