**SUDZ** has been formulated for use in both automatic and manual car washing systems. The high-volume foam and heavy concentration of **SUDZ** allows excellent foam stability at a very high rate of dilution.

**DIRECTIONS:** For normal cleaning, dilute **SUDZ** at the rate of one gallon of **SUDZ** per 250 gallons of water. For more difficult jobs and for high foam volume, dilute 1 1/2 gallons of **SUDZ** per 250 gallons of water, or adjust as desired.

**CAUTION:** Use ventilation adequate to maintain TLV. Avoid contamination of food or potable water. Do not ingest. Avoid prolonged or repeated contact with skin. If skin is contacted, wash off with soap and water. If eyes are contacted, flush 15 minutes with water. See a physician. Dispose of empty container in accordance with local regulations. Consult Safety Data Sheet for additional information.
