GELLED SILICONE SHAKER PAD LUBRICANT

PAD & SHAKER PRETREAT is a clear, non-toxic synthetic spray lubricant designed to lubricate and protect rubber tree-shaker slings. This compound deeply penetrates into rubber and leaves a stable broadcast of synthetic lubricant to provide a slippery barrier for reduced friction on the rubber to rubber surface. It prevents heat build-up during the tree shaking operation and prevents bark damage to the tree. This clean, non-toxic formula can be used with confidence to provide solutions to a multitude of lubrication problems associated with valves, pistons, rings, seals, slides, tracks, hinges, gears, etc.

FEATURES & BENEFITS:

- High Silicone Content** - Stays slicker longer.
- Convenient Packaging** - Quart bottle with flip top or aerosol.

APPLICATIONS:

All automatic and manual application tree shakers.

DIRECTIONS:

Point trigger toward target area and spray a thin film into the working surface of the shaker sling. As the lubricants impregnate the surface of the rubber, a shiny wet appearance will be maintained. Re-apply approximately once per hour or as conditions warrant. When new shaker slings are installed it is recommended to pre-soak the working surface of the rubber with **PAD & SHAKER PRETREAT** two or three times at 1-hour intervals prior to installation.

CUSTOMERS WHO USED THIS PRODUCT ALSO USED:

FORMULATION:

Silicone, Solvent blend.

TARGET ACCOUNTS:

Almond, Pecan, Pistachio, Walnut, Prune harvesters.

SPECIAL CAUTIONS:

None

PACKAGING AVAILABILITY

Bulk liquid quart

PART #5026

Aerosol

PART #1126
