EVAP-O-CLEAN

EVAP-O-CLEAN is designed to sanitize hard nonporous surfaces in food processing plants, retail and food service facilities. Ideal for fast drying application and water sensitive areas. This product can be used on food surfaces such as conveyors, tables, appliances, tools, door handles and other non-porous surfaces.

DIRECTIONS: Area to be sanitized should ideally be cleaned prior to applying this product. Simply mop or sponge on surface to be treated and let dry. Product may also be applied through a sprayer. Area should always be thoroughly wetted with product. **Note:** Do not use product to sanitize wood cutting boards, eating utensils, dishes, cook ware and porous surfaces.

CAUTION: Do not ingest. If ingested, see a physician. Avoid contact with eyes; if eyes are contacted, flush with water for 15 minutes. Avoid prolonged contact with skin; if skin is contacted, wash with soap and water. See Material Safety Data Sheet for further information.
